Brothers [aka. MENEW] are an alternative rock / EDM band composed of three brothers from Toronto Canada; **Shade** (lead vocals, guitar), **Key** (piano, synthesizers) and **Nathan Samuel Phillip** (drums, vocals).

Their story starts when the brothers were growing up on a Christmas tree farm in the outskirts of Toronto. At five years of age, their parents enlisted them in classical piano lessons. Shortly after, they were hosting living room concerts and singing along to **The Beatles** and **Traveling Wilbury's** on makeshift cardboard instruments. *"I think tickets were five cents back then,"* laughs Nathan.

As **MENEW**, the brothers' debut album **Wide Awake Hello** met high acclaim; the first single 'Don't Give Up On Us Now' with over a million plays on YouTube and it's video being considered one of the best of the year. **Rob Capps, Sr. Editor of Wired Magazine** calling it *"A masterpiece."*

Their albums **Wide Awake Hello** and **Mother Nature** met much critical acclaim when short-listed for eight **Grammy Nominations** and have had placements on major networks including **NBC, CBS, MTV, ESPN** and films worldwide. They have since been featured on Network television including the **Late Show with David Letterman** and have toured and performed alongside artists such as **U2, Stone Temple Pilots, Akon, Filter, Weezer** and **Linkin Park**.

Brothers acclaimed debut EDM single 'In Cali', produced and mixed by **Mark Underdown** and **King Arthur**, released in 2017 opening the Cannes Film Festival with a performance at **Gotha Club** alongside Hip Hop artist **French Montana**. Their EDM single for 'Baby You're Like a Drug' releases July 2018, coinciding with a European club tour including shows in Cannes, Monaco and St.Tropez this summer.
